

Insight® Docs Canada

Easily create export documents for your shipments to Canada with a secure and simple tool.

Creating the paperwork needed to ship your products to Canada can be difficult and confusing.

Mistakes or omissions on those documents are a common cause of delays at the border, and can create problems for your Canadian customers. Missing, lost or misrouted paperwork will also lead to delivery delays, additional costs and headaches.

Insight Docs Canada can help. It's a secure, easy-to-use tool that will allow you to easily prepare, transmit and manage your Canadian export paperwork.

Our Insight Docs Canada technology solution

Log on to the secure Insight Docs Web site from any PC and gain access to your stored database of products, consignees and document templates.

Just point and click to easily create all the documents you need for your shipments to Canada, including:

- Canada Customs invoices
- Bills of lading
- Manifests
- NAFTA certificates.

The system's built-in customs compliance features watch for common errors and missing information, and help you correct them before they become a problem at the border.

Once completed, your export paperwork is produced in PDF format for easy printing, emailing and storage. If Livingston is the customs broker for your shipment, your information will be instantly transmitted to us to help ensure the fastest possible clearance.

How you'll benefit

- Ensure accurate documents. Insight Docs Canada will alert you if it detects missing or potentially incorrect information.
- Save time. By storing your product and consignee information in Insight Docs, you can quickly and easily create export documents.
- On-time delivery to your Canadian customers. Accurate and compliant customs documents will help eliminate uncertainty at the border.

About Livingston

Over 30,000 companies trust Livingston with their customs brokerage, consulting, freight and integrated logistics needs.

Livingston is North America's most innovative and knowledgeable customs broker. We offer a full suite of advanced technology solutions to help clients manage their imports and compliance.
