

Insight® Imaging U.S.

Go green. Get easy-to-use, online access to images of your U.S. import documents.

Traditionally, companies have received hard copies of their U.S. import documents.

Those documents are key in overseeing your importing process and managing your customs compliance obligations. This has required importers to manage, index and store massive volumes of paper.

Now, there's a better way.

Livingston's Insight Imaging can give you secure, electronic access to customs invoices, certificates of origin and other key documents—within minutes of our receipt from your supplier or carrier.

Our Insight Imaging technology solution

Upon our receipt, your documents (including invoices, Certificates of Origin, ocean waybills and more) will be immediately indexed and imaged. You'll have online access to those images via our secure Web site almost as soon as we receive them.

When used with Insight Compliance Center, finding and managing your imaged documents is fast, easy and efficient.

Each is searchable by date, exporter, consignee, shipment reference ID, carrier, entry number or almost any other attribute. Instant access to your images, combined with this ease of searching and other key features, makes Insight Imaging the most advanced customs compliance management tool available.

How you'll benefit

- Save time and money. You'll have instant access to your import documents from any computer. You can eliminate filing cabinets, off-site storage and file-retrieval costs.
- Help ensure compliance. Gain easy access to source documents for your import entries. This allows easier review of your entries and oversight of your suppliers.
- Ease of use. Insight Imaging, combined with Insight Compliance Center, gives you unparalleled searching ability. You'll quickly find exactly what you're looking for.

About Livingston

Over 30,000 companies trust Livingston with their customs brokerage, consulting, freight and integrated logistics needs.

Livingston is North America's most innovative and knowledgeable customs broker. We offer a full suite of advanced technology solutions to help clients manage their imports and compliance.
