

Insight® FAST

Insight FAST is a secure, simple web-based tool that gets your shipments to their U.S. destinations, FAST.

Congestion and increased shipment inspections at the U.S. border can keep your cargo from reaching its destination on schedule. Delays at the border add more time for your goods to be in transit, additional transportation costs and potentially lost revenue.

Insight FAST can help.

With Insight FAST, you use an Internet-based system to transmit your customs documents directly to U.S. Customs. The process is easy and speeds the release of your goods.

Our Insight FAST technology solution

To get started with Insight FAST, you must be a participant in Free and Secure Trade (FAST) and Customs-Trade Partnership against Terrorism (C-TPAT).

Insight FAST lets you work from any web-enabled PC to input and create your shipping manifest and easily maintain your FAST records.

With your authorisation, even your carrier can use Insight FAST to create their own electronic manifests for your shipments and transmit them directly to U.S. customs.

With Insight FAST you can

- Send data up to 30 minutes before your shipment arrives at the border using Livingston's Automated Broker Interface (ABI).
- Build your manifests by using previously, stored documents as your template, and adding only minimal new data for each shipment.
- View all release details using a variety of reporting

functions – access data by customs responses, exam results, manifest trip query or entries outstanding.

- Monitor and receive instant messages letting you know exactly where your cargo is in the clearance process

How you'll benefit

- Ensure compliance. Manage your customs activities by viewing real-time carrier and clearance information.
- Save time. With only a few keystrokes, complete your manifest using existing templates of previous documents.
- Save money. There are no information technology costs involved. You access Insight FAST from any PC with Internet access.

About Livingston

Over 30,000 companies trust Livingston with their customs brokerage, consulting, freight and integrated logistics needs.

Livingston is North America's most innovative and knowledgeable customs broker. We offer a full suite of advanced technology solutions to help clients manage their imports and compliance.
