

LIVINGSTON RESOURCE GUIDE

A guide to get started with
Livingston International.

WELCOME TO LIVINGSTON

We are thrilled to welcome you to the Livingston family. We understand that running your business is your number one priority, which is why we strive to make your onboarding as seamless as possible. As we move the former Affiliated resources under the Livingston umbrella, you will notice a few small changes, including a new Livingston invoice with new billing codes and remittance information.

To make your transition easier, we have put together this reference guide to help you. This overview will help you discover some of the tools and resources available to you as a Livingston client. This guide will also help explain your new Livingston invoice, including a breakdown of fields and payment options.

Please note that your Affiliated invoices should continue to be paid as usual. This includes any unpaid invoices already received by you, and any work in progress that has already been initiated on Affiliated system for which you will receive an Affiliated invoice.

The payment options contained in this reference guide apply for your new Livingston invoices only. Please set up Livingston as a new vendor in your system, while keeping Affiliated as an open vendor until your balance owed to Affiliated is resolved, and all the work in progress is finalized, billed and paid.

As there are no changes to your service structure at this time, you can continue to depend on the same contacts you have come to know as an Affiliated client.

Please take a moment to review the guide, visit the links and bookmark them for future reference. If you have any additional questions about Livingston, your new invoice, or how you can best make use of our resources, please don't hesitate to contact your local representative.

ABOUT LIVINGSTON

Livingston is North America's number one company focused on customs brokerage and compliance. We also offer consulting and global trade management services, as well as international freight forwarding, across North America and around the globe.

We help our clients manage the complex and constantly evolving world of international trade by offering multiple business solutions and delivering them in a timely, seamless and cost-effective manner.

The following are our main service offerings:

Customs brokerage

Our experienced customs professionals, supported by a full suite of advanced technology solutions, are available to help you manage your imports and compliance processes every step of the way. We can help you improve your compliance with Customs, reduce your risk, and improve your visibility into the customs process.

Trade software

TradeSphere, preferred global trade management software, for many leading multinational companies. Scalable and automated, it simplifies the complexities of global trade.

Global trade management

Our tailored services provide long-term management of all aspects of your global trade operations and compliance. We offer end-to-end customized solutions as well as components that address specific areas of global trade management.

Freight forwarding

We arrange efficient transportation by air, ocean, rail, truck or intermodal, from point of origin through to final destination.

Trade consulting

For larger companies our customs, regulatory and financial experts help companies implement compliance programs, manage NAFTA certificates, meet audit requirements, recover duties and taxes and manage border security.

Business process outsourcing

We help you streamline your business by designing and delivering program management, information management and contact center services.

TECHNOLOGY SOLUTIONS

Powerful new tools at your disposal. Now have access to a robust suite of solutions that will help to simplify trade for your business.

Insight® Compliance Center

Our Insight® Compliance Center will allow you to access real-time trade information. You can view, analyze and download information about your company's importing activity. With Insight Compliance Center's reporting ability, you can use this information to improve your competitiveness. Insight is also a critical tool for ensuring compliance with Customs, by giving departments related to the customs process access to this information.

Insight® e-Vent

Insight e-Vent is an automatic e-mail system that will track certain shipment events and e-mail you when the event is triggered. This allows you to always know the exact customs status of your U.S. brokerage shipments without having to log into any program. When a problem occurs, or when the shipment has arrived, you will automatically receive an e-mail. Available for U.S. customs brokerage services only. To set up this free service, contact your Client Services Manager. In your request make sure to specify what type of event you would like to be notified of, where the e-mail should be sent to, and all applicable client numbers.

Insight® Docs

Available for both U.S. and Canadian suppliers, this online tool allows companies to quickly and easily create shipping documentation. Designed primarily for the fast pace of border shipments, this software can even send the document information electronically via Insight e-Link saving you time and money.

My Livingston

Everything in one place. My Livingston simplifies importing and exporting and keeps you informed every step of the way. It is designed to deliver better business intelligence through a modern reporting tool and enhanced shipment visibility to ensure there are no surprises.

Quickly see items that require attention. Gain valuable insights on your vendor, carrier and business performance through enhanced reporting. Manage your customs activities online and store your entries electronically to meet government agencies record-keeping requirements. Leverage other trade help tools and Livingston solutions such as Freight Tracker, Livingston Express and Document Creation through a single sign-on.
